

Vent Free Fireboxes

VERSATILE SOLUTIONS FOR YOUR HOME

ENJOY THE FIREPLACE YOU'VE ALWAYS WANTED

Magnum MCF Series

Available log set may differ from log set pictured.

Monessen offers one of the most diverse lineups of vent free gas fireboxes available, making it easy to find the right look for your home. Enjoy beautiful flames, excellent heating and a customized look with the addition of your choice of Monessen log sets, plus these added benefits:

SAVE ENERGY AND MAXIMIZE HEAT

Vent free gas fireplaces (available in natural gas and propane) are a safe, green and energy efficient way to add heat to your home — in fact, they're 99.9% energy efficient. Because they are vent free, none of the heat gets lost up a vent, flue or chimney. Instead, fuel dollars get transformed into heat-warming energy. Plus, you can always be assured of a heat source, even in the event of a power outage.

INSTALL IT WHERE YOU WANT IT

Because vent free fireboxes and log sets are designed to be installed and operated without a chimney, flue or vent, they can be installed in locations in your home where it would be impossible or cost prohibitive to install a vented fireplace. They provide the most economical installation, only requiring a connection to a gas line.

YOU'RE IN THE CLEAR

Monessen vent free fireboxes allow for zero clearance installation, which means they may be installed flush against any combustible surface such as drywall or wood. This gives you added flexibility and helps save installation dollars when deciding where to install your fireplace, whether on an interior or exterior wall. (It is important to remember that the appliance should be sized to fit the area in which it is to be installed and must meet any additional regional or local requirements.)

COMPLETE YOUR LOOK

Monessen offers a large selection of vent free log sets (sold separately) that are a perfect complement to your new fireplace. Ask your dealer for details, or visit monessenhearth.com.

EXPANSIVE VIEWING AREA WITH THE TALLEST FIREPLACE OPENING AVAILABLE

Lo-Rider LCUF Series

For a true masonry look, the Lo-Rider Series features a low profile hearth, so the firebox appears to nearly rest on the floor, providing the tallest fireplace opening and a truly expansive viewing area.

Quick Look:

- Tallest opening available for full view of fire
- Low profile hearth
- True masonry look
- Available facing options include Perimeter Trims, Classic Arched Faces and Cabinet Doors with Screen

Interior Firebrick

Refractory Herringbone

(Available for the LCUF32 Only)

Lo-Rider LCUF Series

SPECIALTY OPTION

Lo-Rider Designer Series

The Designer Series is available in See-Through and Peninsula, adding style and warmth to multiple rooms while maintaining a contemporary feel. The louverless design provides a clean exterior for an ultra sleek look.

Quick Look:

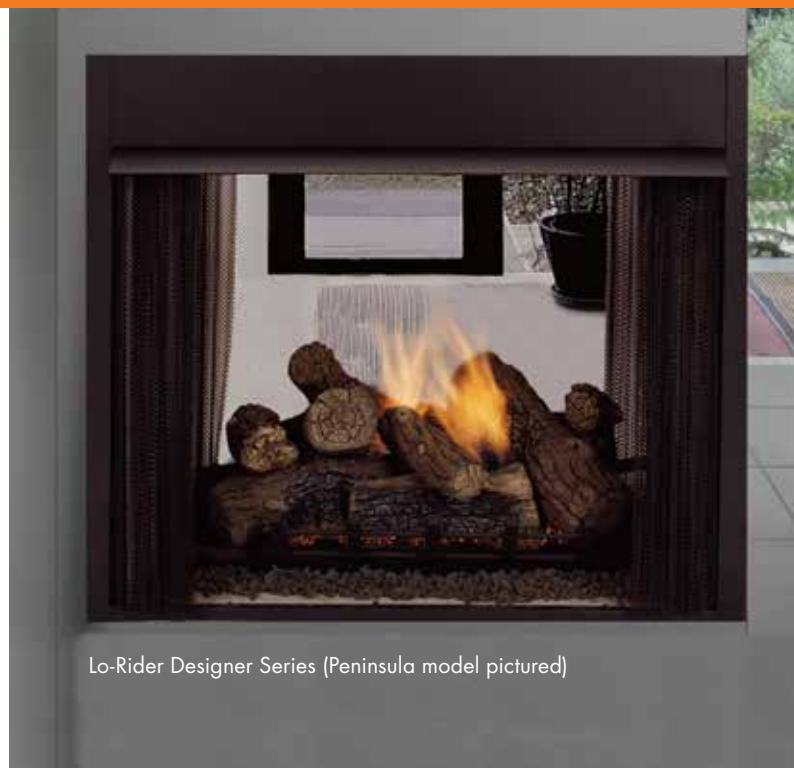

- Tallest opening available for full view of fire
- Radiant face design with heat circulating air ducts for optional blower
- Low profile hearth
- True masonry look

FLEXIBLE INSTALLATION OPTIONS

BUF42-R

Exacta BUF Series

Enjoy the fireplace you've always wanted, expansive views and all. Combined with a Monessen vent free log set, the Exacta firebox provides warmth and ambiance to practically anyone, anywhere. The Exacta delivers maximum airflow, efficiently adding heat to your home, while the zero clearance design gives you flexibility, and helps save installation dollars.

Quick Look:

- No chimney or venting required makes installation fast, easy, and affordable
- Clean, louverless design
- Tuck the screen into hideaway pockets to reveal expansive views
- Black interior provides elegant background for vent free log set
- Brick interior available for a traditional look
- Large hearth area allows for a variety of log sets
- Angled firebox and uniquely engineered air channels move more heat into the room, maximizing efficiency
- Available in 36" or 42" models
